Thank you for participating in this special commemorative book honoring women veterans. The National Women Veterans United was founded in March, 2005 by a group of women veterans that served in the Armed Forces during peace time and various war eras. We believe that the legacy of women who paved the way for change and equality in the military should be preserved. Women veterans must be educated on their VA benefits and entitlements and their aging demands must be met. The contributions and sacrifices of women standing in defense of this nation must never be forgotten. We honor their legacy and their dedication with this celebration.
